

Program Description

Royalty in Review

Our programs provide an organized and accommodating gallery environment where students are able to develop their faith and art skills with plenty of support from our staff and artists. Our daily activities will reflect the session theme.

Your child should bring a brown bag lunch. Refrigerator will be made available. Students are grouped by age for session placement. Students are separated into age appropriate categories: youth, preteen and teen.

If the session for your child's age group is not full then their session will be combined, postponed or canceled. Combined classes are viewed like a family atmosphere in which older and younger children learn together.

Making Decisions Like a King
